Other Meetings

Black, R. A., and J. Hallett, 2010: Aircraft measurement of the probability distribution of precipitation rate and liquid water content in the hurricane: measurements and model criteria for prescription of a variable moisture climate. 21st Conference on Climate Variability and Change

cyclone track and intensity predictability. DoD HPC Users Group Conference, Schaumburg, IL, 14-17 June 2010.

Liu, Q., 2010: HWRF initialization. DTC/EMC HWRF tutorial, Boulder, CO.

Marks, F. D., 2010: Process study observations focused on better prediction. 14th Meeting of the GCOS-GOOS-SCRP Ocean Observations Panel for Climate Miami, FL, 18-20 January, 2010

Rogers, R., 2010: Research Needs and Opportunities for Improved Forecasting of U.S. Landfalling Tropical Cyclones. 2nd International Workshop on Tropical Cyclone Landfall Processes, Shanghai, 19 - 23 October 2009

Tallapragada, V., 2010: Overview of HWRF modeling system. *DTC/EMC HWRF tutorial, Boulder, CO.*

Tallapragada, V., 2009: Advanced operational hurricane modeling system (HWRF) at NCEP/EMC. *Symposium on "Advances in Atmospheric, Dispersion Modeling, Climate Change & Geospatial Visualization technologies", Jackson MS, July 2009.*

Torn, R. D., S. Cavallo, C. Davis, C. Snyder: Real-time mesoscale ensemble data assimilation for Atlantic TC. *4th EnKF Workshop, April 7-9, 2010, Rensselaer, NY.*

Tuleya, R. E., 2009: Tropical cyclone models at landfall. *DTC/EMC diagnostic workshop, NHC, Miami, FL.*

Tuleya, R. E., 2010: *HWRF Physics. DTC/EMC HWRF tutorial, Boulder, CO.*

Yablonsky, R. M., I. Ginis, B. Thomas, Y. Fan, and Coauthors, 2009: *URI contribution towards improving the GFDL/GFDN and HWRF operational models under JHT funding and future plans. 1st NOAA Testbed USWRP Workshop, Boulder, CO.*

Williams, C. L., and F. D. Marks, 2010: *Assessing tropical cyclone contribution to annual global rainfall*. 21st Conference on Climate Variability and Change
